1 BACKGROUND:

The history of RSC Limited dates back to more than 11 years when it started its business with trading livestock in Somalia in 2008 under the name of Hadji Enterprises. Over the years the RSC Limited decided to diversify its activities to another sphere and entered into construction and engineering industry. The company further diversified its range of business by entering transportation and logistics sectors in industry in 2015. In 2018, RSC was registered in Kenya to trade on none Pharmaceutical health products in Kenya. We are one of the fastest growing infrastructure & trading company with rich and varied experience in executing landmark projects across Somalia

VISION

The RSC's vision is to be a leading construction, Trading and Logistics empire in Somalia and Kenya.

MISSION STATEMENTS

The mission of Regional Suppliers is to be the finest Organization, and to conduct business responsibly in a straightforward way. Our basic aim is to benefit the customers, employees and shareholders, and to fulfill our commitments to the society. Our hallmark is honesty, initiatives and teamwork of our people, and our ability to respond effectively to change on all aspects of life including technology, culture and environment. We will create a work environment, which motivates, recognizes, and rewards achievements at all levels of the organization

CULTURES

The company culture at Regional Suppliers is driven by its vision and mission, and a set of values that have resulted in the establishment of its credibility among its peers and partners in the industry. The Company's vision centers on the client's satisfaction, and delivering quality services in a professional and timely manner.

VALUES

At RSC Limited, we are committed to:

- Transparency
- Professionalism
- Integrity
- Accountability

4

WATER INFRASTRUCTURE DEVELOPMENT

We have delivered large water infrastructure development across the regions of Somalia including drilling and civil work of Boreholes, Hand Dug Wells, Berkets, Rain water Catchments, and irrigation canals to International, Local, and Government of Somalia.

Apart from Jubba and Shebelle rivers, the Somali population depends on underground water for domestic water supply, livestock and small scale irrigations. Borehole are the most strategic source of underground water in Somalia. Thus RSC Limited developed experience in dealing with underground water mainly in south and central Somalia. We drilled more than 20 boreholes, excavated about 87 rain water catchment, constructed elevated water tanks, digged more than 100 hand dug wells across Somalia during last 7 years.

RSC Limited developed capacity to undertake various projects at the same time while strictly adhering to the quality and standards required by our clients. We are known for valuing our customer satisfaction to the highest possible.

5

TRADING AND LOGISTICS

Is the group's logistics and transportation services wing that provides a range of logistics-related services to non-profit and commercial institutions, as well as the public sector. The company has the capacity to manage and coordinate logistics projects of any magnitude, including local and international logistical destinations and sources. The services offered by RSC Limited Logistics include transportation Services, water trucking, and in currently main vendor of stationaries, food and fuel supplies to public and humanitarian organizations in Somalia.

6

LIVESTOCK TRADING

Starting with the business, the RSC Limited has deeply rooted in the livestock trading in early years within the country. In partnership with Al-jabiri livestock exporters from Saudi Arabia, the company started exporting the livestock mainly serving as in country mobilization of the livestock in Somalia while dealing with customs and clearance at Mogadishu and leaving other export facilitation with Al-jabiri Company who is the main vendor of the RSC Limited. The traded livestock included. Camel and Shoats.

7

TRADING ON NON-PHARMACEUTICAL PRODUCTS

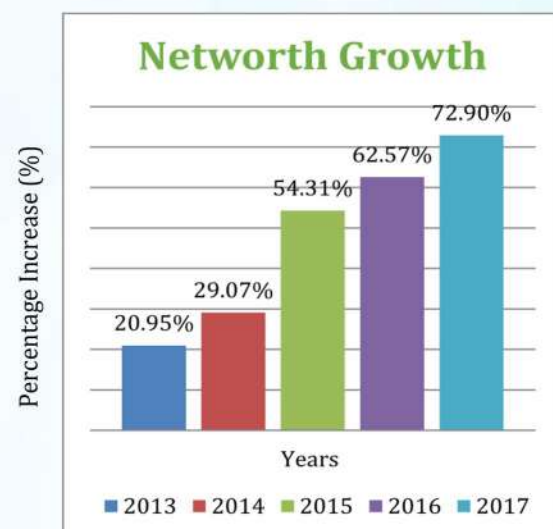

RSC Limited supplies non- Pharmaceutical products including Microscope (Omega), H-Pylori, HCG (Gloves, Syringes, EDTA tubes, Salmonella, Rhesus factor into our newly discovered market of Kenya. We import products from China and Malaysia and distribute it to our clients in Kenya.

RSC Limited non pharmaceutical products and services will be unique and exclusive. Our competitive edge is that its products and services are 100% deliverable to our customer's expectations, unlike competitor's products and services are distributed with warrants. By this fact, the Company's attracted people that value guaranteed products and services. Since RSC Limited products will mostly be the above mentioned sectors, it considers itself to expand to direct mail catalog sales by being in an established catalog, with a similar target market

8

FINANCIAL INFORMATION

RSC Limited has been financially growing with positive financial indicators. Our key financial success has been attribute to controlling fixed and variable costs and our strategic allocation of resource among potential and emerging markets in Somalia.

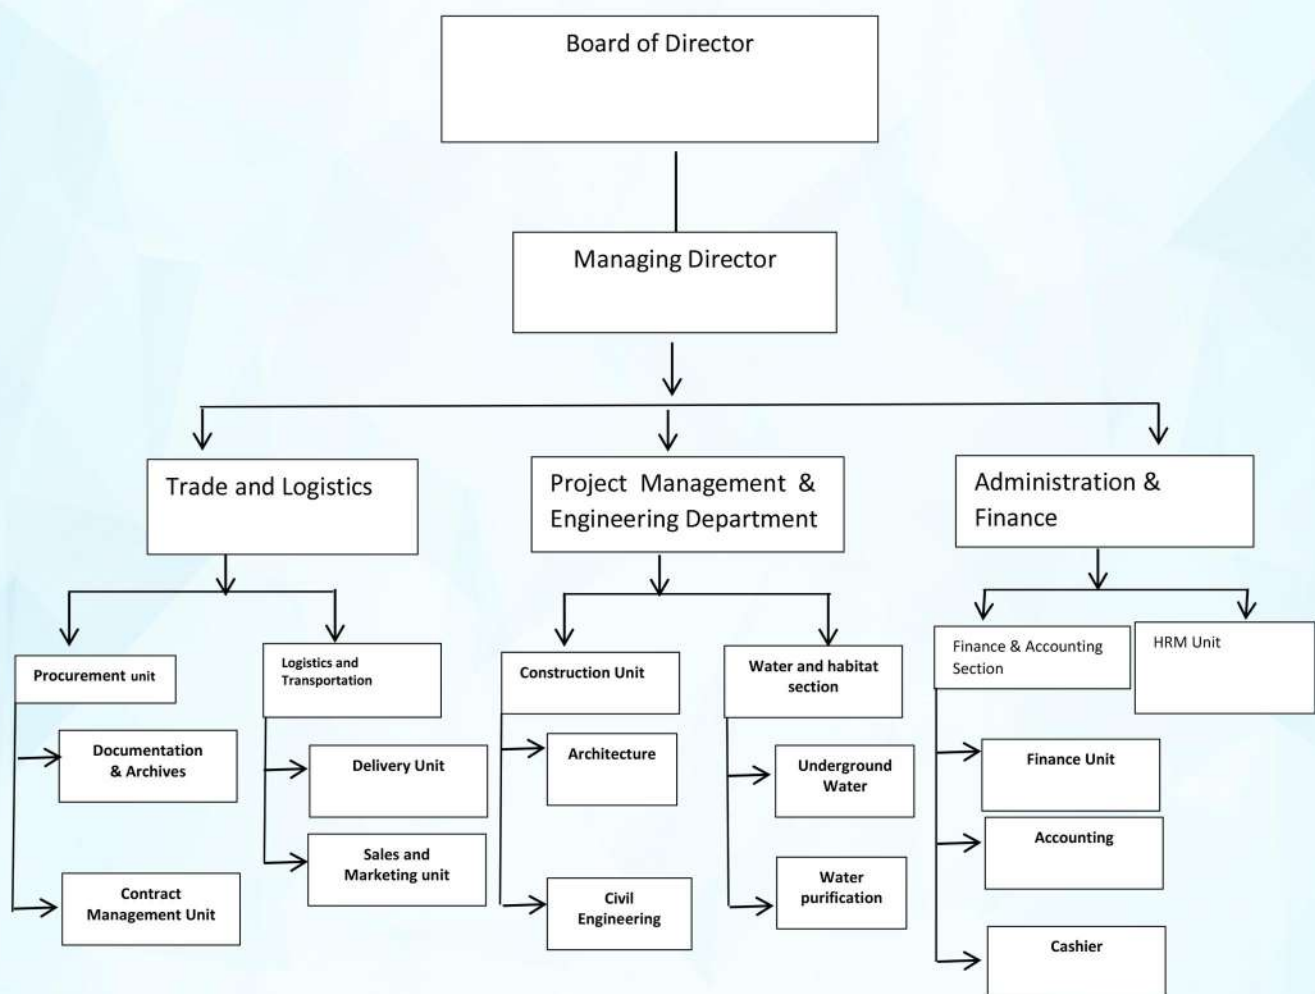

RSC Limited is in a strong financial position having excellent growth in all key financial indicators. This strong financial management capabilities provides framework for timely mobilization and successful execution of projects. RSC Limited maintained health year of growth and Banks with Equity Bank Limited in Kenya, Premier Bank and Dahabshil Banks in Somalia.

RSC Limited conducts yearly audit by external Audit Firm to provide independent opinion on financial statements. Similarly, we developed trust and credit with our banking institutions which enables us to finance our projects with banks should the need arise any time.
